Important Update Regarding Our Membership Club

If you have been an NHS patient of the practice, you will by now have received communication from us and be aware that Brightside Dental will stop providing NHS dental treatment from 1st July 2022.

I am very thankful for the overwhelming support and positive messages we have received from the majority of our patients regarding the upcoming changes.

If you have already joined our Membership Club or found a new NHS practice to join, there is no need to read on. If, however, you are yet to take action to arrange your dental care after June, please allow me to tell you a little more about our Membership Club.

Our new Membership Club has proved to be very popular, and we have already had a large number of patients join since its introduction in January.

We have set a limit on the members we will accept up to the end of July. This is so we can ensure we limit long waiting times for appointments and are able to accommodate members when they are due to see us for maintenance. Members will always have the first priority for appointments, compared with irregular attenders or those who have not visited the practice before.

At the time of writing, we have **197** membership places remaining. The opportunity to join our Membership Club will remain open until the end of July or close sooner, in the event all these places are taken. If you are interested in joining, I would urge you to go ahead now. This update is going out to over 2000 people and we already have a number of patients who have expressed an interest in joining, who we will be speaking with.

[Here is the link](#) for general information about our membership options.

The reason we don't have all levels and fees outlined on this page is that we have 16 different options available, and we would like to recommend the best option to meet your individual needs.

If you are planning to seek NHS dental care elsewhere, if you haven't already done so please look into this as soon as possible as spaces seem very limited in local practices.

[An investigation by The Times](#) indicates that 9 out of 10 dental practices are not taking on new NHS patients.

If you are not already aware, once you are a member, any children you have under 10 qualify for FREE dental assessments and maintenance.

Best wishes

Ketan

Thank you for recommending us!!!

Brightside Smile of the Month – June 2022

BEFORE

AFTER

Dr Ronit Patel

**brightside
dental**
Home of Calm and Gentle Dentistry

Colin visited Brightside Dental as he was unhappy with the appearance of his front teeth: the colour, the shape and the gaps.

Following a discussion on the available treatment options with Dr Ronit Patel, Colin chose to have a fixed bridge to improve the look of his upper front teeth.

The treatment was completed in just three weeks and over two appointments. The first was the preparation of the bridge, followed by a scan of the teeth using AI technology and the placement of a high-quality temporary bridge. The second visit involved the final fit of the permanent bridge.

There are different types of bridges we can provide. Bridges that are a combination of metal and porcelain, or bridges that are completely porcelain (these are of higher quality and better in appearance).

Colin's treatment consisted of:

- A comprehensive dental assessment including radiographs and digital photographs
- A discussion of all options for improving aesthetics and closing spaces
- The preparation of the bridge, plus a high tech AI scan to send to our dental laboratory
- The placement of a high-quality temporary bridge
- The fitting of the final bridge and maintenance

Here's what Colin had to say after his new bridge was fitted:

If you would like to know more about how we could help improve your smile, you can phone the practice at 020 88884401 or email:

Dr Ronit Patel

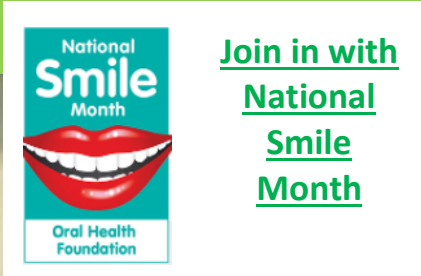

Associate Dentist
BDS (Sheff) 2012

Ronit qualified from the University of Sheffield in 2012 and has since gained a wide range of experience working in practices in Wales, Surrey and Central London.

His philosophy is to practice minimally invasive dentistry, with an emphasis on prevention to create happy smiles! He is a certified Invisalign provider and understands the individual differences of each smile.

Through being a certified dental seditionist, Ronit is experienced in treating patients who have anxieties and phobias about dental care.

Our Dental Nurse Lana climbed Mount Snowdon in aid of Cancer Research UK with five friends recently. Here are some lovely images of her in action!

Our Dentist Ronit plans to undertake a total of three triathlons this year (one completed so far), in support of the Better Lives Foundation.

[You can read more and support his efforts here.](#) Good luck Ronit!

Latest Team Member of the Month is our Dental Nurse Simona. This is a richly deserved award and we'd like to thank Simona for supporting our patients and dentists so well. Here she is with her certificate...

What our patients say about us

You can share your feedback on your experience at Brightside Dental [here](#)

James O'Hare

Brightside Dental are brilliant at what they do. Highly recommended.

Janice Williams

I've been coming here many years and even though I've moved away, I still prefer to come here. Friendly reception, friendly dentists, I feel very confident and comfortable in their hands.

Cristinel Gorcea

Brightside Dental Practice experience. 🍷👍
Dr.Ketan has been my dentist for many years.
I would like to thank him for his professionalism and expertise that is excellent and very high qualitative.
Every six months I am visiting the practice for the check up and dental hygiene.
Mihaela, she is one of the dental professionals team which is doing a great work, efficient, effective and safe. 😊👍
Brightside Dental practise is a practice with a highly professional and experienced team.
Excellent no-compromise dental work.
Highly recommend. ★★★★★

Rokit Event Production

Amazing service. Painless, confident, makes me feel relaxed and at ease. I nearly fell asleep during a filling. That says it all.
